# MALAYSIA

## Description:

The new Driver's License is a Plastic Card Material (PETG) replacing the paper-based plastic laminated driver's license. It incorporates updated security features with dual language in English and Bahasa. The new driver's license incorporates a color photo of the holder printed during personalization of the document.

The new Driver's License identifies the holders valid driving license category, license class and relevant information. The Document establishes the license holder's identity and his/her Malaysian nationality or resident status in the country.

The new Driving License features security design background with geometric designs, multiple relief, parametric lines, line modulation, micro text, and serial numbering. It incorporates a Hibiscus Optical Variable Image (OVI) with custom security design holographic overlaminate.

The new Malaysia Drivers License is issued for Commercial Driving Licence (CDL) and Probationary Driving License (PDL).

Back of both driver's license has serial number at top right, listing of license classes, issuing branch code and authorizing signature.

## Term:

CDL: 1, 2, 3, 4, or 5 years, driver's choice. Expiration is on holder's birthday.

PDL: 2 years

## Validation:

At the front middle right hand corner the Hibiscus icon changes colour from red to green when the license is tilted. The license is also laminated with Two Channel Pseudo Colour Holographic features;

1. At the front middle left hand corner the flip effect between Malaysia Crest and the Malaysia Flag,
2. At the front bottom right hand corner the flip effect between Hibiscus Flower and the Malaysian Road Transport Department Logo.

Authorizing signature at the back bottom of the driver's license.

## Other:

First six digits of Identity Number indicate birthday in YYMMDD form at (e.g., 801231 shown on driver's license equals birth date of December 31, 1980), for Malaysian Nationals.

Pasport Number is used for other nationals. Three letter country code is used to indicated nationality (e.g. IDN ; INDONESIA)

Minimum age for obtaining a driver's license is 17 years, 16 for a motorcycle license.

Reka Bentuk Belakang

### **Sample of the Philippines Domestic Driving License (As of 24 July 2015)**

The Philippines domestic driving license still contains the same types and classes of driving license applied in the Philippines based on Philippines' Land Transportation and Traffic Code (R.A. No. 4136) 1964 the Professional driver's license holder allows all following types/classifications of motor vehicles. However, he/she still have to pass written and practical examinations according to type/classification of motor vehicle being applied for:

|                     |   |   |
|---------------------|---|---|
| Restriction 1       | - | Motorcycles/motorized tricycles             |
| Restriction 2       | - | Vehicle up to 4500 KGS GVW                  |
| Restriction 3       | - | Vehicle above 4500 KGS GVW                  |
| Restriction 4       | - | Automatic Clutch up to 4500 KGS GVW         |
| Restriction 5       | - | Automatic Clutch above 4500 KGS GVW         |
| Restriction 6       | - | Articulated Vehicle 1600 KGS GVW below      |
| Restriction 7       | - | Articulated Vehicle 1601 up to 4500 KGS GVW |
| Restriction 8       | - | Articulated Vehicle 4501 KGS above GVW      |
| Restrictions 1, 2&4 | - | only for Non-professional driver's license  |

Furthermore, the driver's license will be color-coded starting next month (August) which will have bigger photos, letters and the inclusion of the words "driver's license" in the cards for non-professional and professional drivers.

Student drivers will be issued orange licenses, while professional and non-professional drivers will be issued the traditional blue licenses.

## **CLASSES OF SINGAPORE DRIVING LICENCES**

The Singapore driving licence is categorised based on the following classification of motor vehicles:

**Class 1** vehicles consist of invalid carriages, that is to say, motor vehicles the weight of which unladen does not exceed 250 kilograms and which are specially designed and constructed, and not merely adapted, for the use of persons suffering from some physical defect or disability and are used solely by those persons.

**Class 2** vehicles consist of motor cycles with a cylinder capacity that exceeds 400 cubic centimetres.

**Class 2A** vehicles consist of motor cycles with a cylinder capacity that exceeds 200 but does not exceed 400 cubic centimetres.

**Class 2B** consist of motor cycles with a cylinder capacity that does not exceed 200 cubic centimetres, or motor cycles which are propelled by electric motors and registered as motor cycles under the Road Traffic (Motor Vehicles, Registration and Licensing) Rules (R5).

**Class 3** vehicles consist of —

(i) motor cars constructed solely and adapted to carry not more than 7 passengers (exclusive of the driver) and the weight of which unladen does not exceed 3,000 kilograms; and

(ii) motor tractors and other motor vehicles the weight of which unladen does not exceed 2,500 kilograms.

**Class 3A** vehicles consist of any class 3 vehicle which can be driven without the use of a clutch pedal.

**Class 4** vehicles consist of heavy motor cars and motor tractors, the weight of which unladen exceeds 2,500 kilograms.

**Class 4A** vehicles consist of heavy motor cars which are omnibuses, that is to say, public service vehicles which are used on scheduled services and in which passengers are charged separate and distinct fares.

**Class 5** vehicles consist of —

(i) light locomotives, that is to say, motor vehicles which are not constructed to carry and load (other than water, fuel, accumulators and other equipment and materials used for the purpose of propulsion, loose tools and loose equipment) and the weight of which unladen does not exceed 11,500 kilograms; and

(ii) heavy locomotives, that is to say, motor vehicles which are not constructed to carry any load (other than water, fuel, accumulators and other equipment and materials used for the purpose of propulsion, loose tools and loose equipment) and the weight of which unladen exceeds 11,500 kilograms.
